

Abode of the Message, Inc.

“RULES OF THE ROAD”

Dear Guest:

Welcome to the Abode of the Message! We are delighted that you have come to share our beautiful campus, including our Mountain Camp, and we want your time here to be as enjoyable and safe as possible.

The road to the mountain camp is not designed to handle heavy traffic. Efforts to prevent further erosion have created several areas where there are sharp drop offs on either side of the road and fewer areas where vehicles can safely pull off when encountering oncoming traffic.

Therefore, we suggest that unless you have a 4-wheel drive vehicle, that you NOT drive up the mountain road. Also, parking is limited, so please consider leaving your car down at the main campus and taking one of the frequent shuttles.

If you do drive up the mountain, please use EXTREME CAUTION and observe the following rules:

1. If you see a car coming in the other direction, immediately look for a place to safely pull over.
2. Please give the right of way to vehicles going up the mountain.
3. Drive slowly, even if you are familiar with the road. Recent changes to the road have changed driving conditions.
4. Use low gear, particularly when going up the mountain just before turning to the right and a steep hill.

If you encounter difficulties with the mountain road, require assistance, or have any questions, contact a staff person.

Thank you and have a beautiful stay at the Abode!
